INTRODUCTION

Company History

ART, beautiful art that is wrought Iron, this is the vision that gave rise to the steel fabrication and basic construction company that is Fair Zone trade cc. After the founder of Fair zone attained a three year course in welding and steel fabrication, he went to work as an artisan. He gained experience in making quality security upgrades using various iron and steel fabrication techniques. In 2007 Fair zone trade cc was established with the sole purpose of creating beautifully crafted products and to be distinguished by the way we deliver. Since then the company has ascertained a strong reputation for delivering high quality and artistically crafted products that perfectly suit the security and visual expectation of the client.

The company is based in Midrand and has clients throughout the Gauteng, Mpumalanga and North West province and is gradually expanding to a National level. Fair zone also has a level 1 BEE status and together with their clients, the company aims to improve the lifestyles of their employees and to plough back into the community.

What the company does

Fair zone is premium producer of commercial, industrial and domestic steel fabrication, security, engineered steel, iron products and basic construction. The products range from sheet metal roofing and steel structures to security enhancements and balustrades. Our services are represented in a number of sub-sectors which include; architectural, basic construction, security and engineering. For a full list of services please see the services section below.
